Key facts – highest level of qualifications on a Ward level

Adur

- Cokeham 5.4%, Peverel 5.2%, Widewater 5.0% and Hillside 5.0% all have high levels of persons aged 16 years and above gaining apprenticeships. Surprisingly the figure is lower in Eastbrook Ward at only 3.7%, third lowest in Adur. The lowest figure is in St. Mary's Ward, 3.2%, in Shoreham and this may be due to the high number of care homes in this ward and the associated older population.
- The lowest level of qualifications, level 1, are highest in persons aged 16 and over in these wards in Adur:
 - Churchill & Mash
 - Barn both 18.3%
 - Eastbrook 17.6%
 - Hillside 17.5%
 - Peverel 17.2%
 - Cokeham 17.1%
- Similar wards as above then have the lowest attainment of level 4 & above qualifications in Adur. Note however in addition Southlands Ward appears high, second, on this list:
 - Peverel 14.4%
 - Southlands 15.3%
 - Hillside 16.1%
 - Cokeham 16.2%
 - Mash Barn 16.3%
 - Churchill 16.8%
- The figures above can all be compared to those for St. Nicolas Ward which has the lowest level of level 1 qualifications at 12.5% and the highest rate of level 4 & above qualifications, 36.2% in Adur. Thus all the six wards listed above Peverel,

Southlands, Hillside, Cokeham, Mash Barn and Churchill have persons gaining half or even less of the highest qualification level, level 4 & above, as compared to St Nicolas Ward.

- Southlands Ward also has the lowest percentage of 16 year olds and over gaining qualifications to level 3 at 9.8% for any ward in both Adur and Worthing. This level is in fact the fourth lowest for any ward in West Sussex just behind Langley Green in Crawley which is in third place with 9.7%.

Key facts – highest level of qualifications on a Ward level

Worthing

- Apprenticeships gained are highest in Salvington, 4.9%, Castle 4.7% and Offington Ward 4.4% in Worthing. Central Ward has the lowest percentage of persons gaining an apprenticeship for any ward in both Adur at Worthing at 2.5% of over 16 year olds. Heene has the second lowest rate in both Adur and Worthing at 2.8%.
- Northbrook Ward has the highest percentage of 16 year olds and over gaining the lowest qualification level, level 1, at 18.7% and Castle Ward has the second highest 17.2%. Conversely Castle Ward has the lowest percentage of over 16 year olds gaining the level 4 & above qualification level at 17.3% and Northbrook has the second lowest at 18.5%. It should be borne in mind though that the figure for Castle Ward of those gaining level 4 & above qualifications is still higher than the six wards listed above for Adur; Peverel, Southlands, Hillside, Cokeham, Mash Barn & Churchill.

Definitions

Managers, directors and senior officials: A significant amount of knowledge and experience of the production processes and service requirements associated with the efficient functioning of organisations and businesses.

Professional occupations: A degree or equivalent qualification with some occupations requiring postgraduate qualifications and/or a formal period of experience-related training.

Associate professional and technical occupations: An associated high-level vocational qualification, often involving a substantial period of full-time training or further study. Some additional task-related training is usually provided through a formal period of induction.

Administrative and secretarial occupations: A good standard of general education. Certain occupations will require further additional vocational training to a well-defined standard (e.g. office skills).

Skilled trade's occupations: A substantial period of training, often provided by means of a work based training programme.

Caring, leisure and other service occupations: A good standard of general education. Certain occupations will require further additional vocational training, often provided by means of a work-based training programme.

Sales and customer service occupations: A general education and a programme of work-based training related to Sales procedures. Some occupations require additional specific technical knowledge but are included in this major group because the primary task involves selling.

Process, plant and machine operatives: The knowledge and experience necessary to operate vehicles and other mobile and stationary machinery, to operate and monitor industrial plant and equipment, to assemble products from component parts according to strict rules and procedures and subject assembled parts to routine tests. Most occupations in this major group will specify a minimum standard of competence for associated tasks and will have a related period of formal training.

Elementary occupations: Occupations classified at this level will usually require a minimum general level of education (that is, that which is acquired by the end of the period of compulsory education). Some occupations at this level will also have short periods of work-related training in areas such as health and safety, food hygiene, and customer service requirements.

Key facts - Occupational group on a local authority level

- The most common occupational group in both Adur and Worthing is the 'Professionals', 14.4% of the population aged 16 -74 in Adur work in this group and 17% in Worthing. However, it must be borne in mind that that the figure for Adur is the third lowest in the county behind the second lowest Arun at 13.3%, and Crawley lowest at 12.3%. The Adur figure is also lower than both that for West Sussex, 16.5% and England 17.5%. In Adur this may be due to the high percentage of 16-74 year olds that are working in 'skilled trades', 13.8%. This is higher than both the county figure, 11.6% and England figure 11.4%. Worthing's rate is 11.2%.
- The lowest percentage of both Adur and Worthing populations work in the 'Process, Plant and Machine Operatives' occupations, 6.6 % for Adur and 5.5% for Worthing. This reflects the average for West Sussex at 5.6% and is below the figure for England 7.2%.
- Adur and Worthing have the joint second lowest percentage of persons working as 'Managers, directors and senior officials' in West Sussex at 10.7% of the population aged 16-74 years. This is below both the figure for West Sussex 12.2% and England 10.9%. Crawley has the lowest rate at 9.1% and Chichester has the highest rate at 14.2% closely followed by Horsham at 14.1%.
