Dear Ian

Community Infrastructure Levy: Draft Charging Schedule

Thank you for consulting the Environment Agency on the above document.

Following on from our previous comments we continue to be supportive of the Community Infrastructure Levy and are satisfied it can go some way to supplement other funding streams in providing new infrastructure to support local growth.

We are pleased to see that your First Draft Regulation 123 List includes Environmental improvements - Teville Stream Restoration as a project that the Council (as Charging Authority) intends will be, or may be, wholly or partly funded by CIL. We would wish to be continually involved as you develop your CIL further. In particular, on adoption of the charging schedule we would wish to be involved in discussions to identify how the funds should be divided between key infrastructure.

Should you require any further assistance please do not hesitate to contact me on the number shown below.

Yours sincerely

Catherine Hutchins
Sustainable Places Planning Advisor
