Reference To The Proposed Submission Adur Local Plan (2016)

Dear Sir / Madam.

Thank You, I now fully understand the term Sustainable Development!
A never ending supply of new homes.
Some 3609 by 2030.

This should increase Council revenues by about 4.33 million pounds per year.
It will help alleviate the additional health and public services, road
improvements and car parks required.

The one service that cannot be increased, and never seemsto be mentioned
is the Water Supply.

Yours sincerely

Michael Hubbard [REDACTED]
