

## **Inspector's Question 4 to the Council**

### **The Policies Map**

Paragraph 010 of the Planning Practice Guidance (under Local Plans) states that when a Plan is submitted for Examination 'an up to date submission policies map should also be submitted, showing how the adopted policies map would be changed as a result of the new plan'. The Council has submitted 'Amendments to Proposed Submission ALP – Policies Map' and 'Inset Map' (CD06/2 and CD06/3). Is the Council satisfied that it is sufficiently clear how the Policies Map would be changed as a result of the new plan?

### **Response from the Council**

As part of the production of the Adur Local Plan, the Council has produced a Policies Map (CD06/2) and Inset Map (CD06/3) to replace the 1996 Adur Local Plan Proposals Map. The differences between the 1996 Proposals Map and the Policies Map/Inset Map are explained in *Appendix 6: Policies Map - Proposed Changes of the Submission Adur Local Plan 2016*.

An additional paper '*Further clarification of differences between the Adur Local Plan 1996 Proposals Map and the Submission Adur Local Plan 2016 Policies Map*' (CD07/21) was also produced to make some of the differences between the Proposals Map and the Policies Map even more explicit, particularly with regard to Local Shopping Parades.

It is considered that the description of differences and accompanying figures as set out in Appendix 6 is the most appropriate way to set out how the Policies Map varies from the 1996 Proposals Map.
