## **Adur Local Plan Examination**

19<sup>th</sup> December 2016

Dear Mr Banks,

Whilst none of the issues listed for discussion by the inspector cover the Adur Floodwatch Group consultation statement relevant to para 155 of the NPPF, please find attached three addresses given to Adur DC full council meetings during 2014-2016 at various stages of the plan approval by members where it becomes obvious that that this group's comments to full council meetings were not being taken in the spirit of community involvement as required by NPPF.

Attention is particularly drawn to those of the 17.12.15 and 21.3.16 and the outcome comments at the end of each address.

Many thanks for your assistance in respect of the above.

Kindest Regards,

Bill Freeman  
Chair
