COUNCIL OF THE YEAR FINALIST - LGC AWARDS

Between 2015 and 2018 we identified that Leadership of our Places was one of our critical five Platforms, vital to ensure our best chance of achieving the prosperous, healthy, innovative places that our communities demand and success across our other Platform agendas.

Some elements of the Leadership Agenda attract considerable public attention, others less so. The vital importance however of good civic leadership of our places has been proven and is well understood. In addition to leading on our 'statutory duties' of providing services, what has become increasingly clear as local government and local governance becomes more fragmented, complicated and less resourced directly by Central Government is the

need to champion, promote, challenge and convene in the interests of our places and the communities we serve. At a time when national and international governmental volatility is at the fore, locally based governance with local government that listens, understands, plans and delivers for the present, and the future, is more vital than ever. At Adur & Worthing Councils (and across a range of our strategic stakeholder partners) we take this responsibility seriously.

At a local level policy debates will at times be contentious, however the democratic integrity and legitimacy of the Councils seldom is. This is a reputation hard won and one we intend to continue and to build upon.

And, we remain clear that the Councils are by no means the only leaders of place. Other institutions, other partnerships, our communities of geography or interest and individual residents at times are much better placed than the Councils to lead. In those circumstances we happily provide a platform for others to lead, whilst recognising our democratic responsibilities to ensure strong outcomes for all.

At a local level we have good networks and have developed our Local Strategic Partnership (Waves Ahead) to be a more flexible network of institutions and leaders. We actively participate in, or lead, a range of partnerships across all of the Platform areas and have put time, energy and care into building the capacity of leaders across our system to step up.

In advocating for our places to institutional investors or framing community based projects with the NHS, our politicians, staff and colleagues from other organisations have shown they can come together to make things happen.

There remains strong consensus around the level of ambition for our places and our communities. This ambition extends well beyond representative (party) politics to participative community leadership as well... we believe this is a healthy indicator for our futures.

Over the next three years we intend to focus our place leadership (with our partners) on the following themes:

- Developing our elected members and fostering relationships with other leaders of our communities
- Developing the reputation of our places (and our reputation as leaders and innovators nationally)
- The civic data agenda
- Emergency Planning and Civil Contingency

“ AT A TIME WHEN NATIONAL AND INTERNATIONAL GOVERNMENTAL VOLATILITY IS AT THE FORE, LOCALLY BASED GOVERNANCE WITH LOCAL GOVERNMENT THAT LISTENS, UNDERSTANDS, PLANS AND DELIVERS FOR THE PRESENT, AND THE FUTURE, IS MORE VITAL THAN EVER.
